Transmittal Letter

December 31, 2019

Members of the Lafourche Parish School Board  
805 East Seventh Street  
Thibodaux, Louisiana

The Lafourche Parish School Board has been required to issue a complete set of financial statements after the fiscal year end. These statements have been prepared in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Therefore, we have issued this comprehensive annual financial report (CAFR) of the Lafourche Parish School Board for the fiscal year ended June 30, 2019 in fulfillment of all report requirements.

### **MANAGEMENT REPRESENTATIONS**

This report consists of management's representations concerning the finances of the Lafourche Parish School Board. Consequently, management has assumed full responsibility for both the completeness and reliability of all of the information presented in this CAFR. A reasonable basis for making these representations is rooted in a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse, and to compile sufficient reliable information for the presentation of the Lafourche Parish School Board's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the Lafourche Parish School Board's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatements. We have asserted, as management, to the best of our knowledge and belief, that the enclosed CAFR is complete and reliable in all material aspects.

### **AUDITOR'S OPINION**

The School Board's financial statements have been audited by LaPorte CPAs & Business Advisors, which is a firm of licensed independent certified public accountants. The goal of

Lafourche Parish School Board  
Transmittal Letter  
December 31, 2019

---

the independent audit was to provide reasonable, but not absolute, assurance that the financial statements of the Lafourche Parish School Board for the fiscal year ended June 30, 2019, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. The independent auditor concluded based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the Lafourche Parish School Board's financial statements for the fiscal year ended June 30, 2019, are fairly presented in conformity with GAAP. The independent audit report is presented as the first component of the *Financial Section* of this report.

The independent audit of the financial statements of the School Board was part of a broader federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements required the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are included in the *Single Audit* part of the *Financial Section*.

GAAP required that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This *Transmittal Letter* was designed to complement MD&A and should be read in conjunction with it. The School Board's MD&A can be found immediately following the report of the independent auditors.

### **PROFILE OF THE GOVERNMENT**

The School Board is a legislative body authorized by Louisiana Revised Statute 17:51 to govern the public education system of Lafourche Parish, Louisiana. The 15 members on the board are elected and serve four-year concurrent terms. The main function of the School Board has been to provide a full range of services appropriate for students in grade levels ranging from preschool through 12. The services provided include regular and enriched academic instruction, special instruction for children with disabilities, as well as vocational instruction. Other services such as assessment, library, transportation and food services have been provided to augment the primary services or to promote the welfare of the students. This report includes all funds of the School Board.

This report excludes the financial information for the other units of parish government, such as the parish council and the municipalities, because they have independently elected parish officials or because the School Board had no oversight responsibility. The School Board has been authorized to establish public schools, as it deems necessary, to provide adequate school facilities for the children of the parish, to determine the number of teachers to be employed, and to determine the local supplement to their salaries.

Accordingly, the School Board is not included in any other governmental reporting entity since the School Board members were elected by the public and have decision-making power to designate management, the ability to significantly influence operations, and have primary accountability for fiscal matters.

### **MANAGEMENT’S GOALS**

The financial information contained in this CAFR must be prefaced by what management was trying to accomplish. The current Strategic Plan covers the fiscal years 2019-2024. The following discussion contains excerpts from the School Board’s strategic plan that are being used by management to set its priorities.

**Mission Statement:** Lafourche Parish Public Schools strive to offer exemplary academic, career, co-curricular and extra-curricular programs to develop in all students a strong sense of responsibility, citizenship, and respect for others in a safe and nurturing environment.

**Vision Statement:** Lafourche Parish Schools are committed to helping all students become lifelong learners, realize their full potential, appreciate the relevance of their education, and become empowered for success.

#### **Belief Statements**

1. Education is the first priority.
2. All children can learn.
3. Open and honest communication builds trust.
4. High expectations must be set for everyone.
5. Efficient and effective fiscal management is imperative.
6. Collaboration with parents and community agencies reduces barriers to learning.
7. Early childhood programs enable students to come to school prepared to learn.
8. Shared decision-making and accountability enhance school effectiveness and increases student achievement.

A copy of the Parish’s *Five Year Strategic Plan: 2019 – 2024* can be obtained by visiting <http://www.mylpsd.com>, clicking on the *SCHOOL BOARD* tab at the top of the page, and then clicking the *Board Docs – Strategic Goals* option from the drop down menu.

### **FACTORS AFFECTING FINANCIAL CONDITION**

The information presented in the financial statements is best understood when it is considered from the broader perspective of the specific environment in which the School Board operates.

**Local economy:** The School Board operated within the boundaries of Lafourche Parish located in South Louisiana approximately 50 miles west of New Orleans, which was the largest metropolitan area of the region. The 1,469 square mile parish is criss-crossed by LA Highways 1, 20, 24, and 308 and by U. S. Highway 90. It also has access to water

transportation via the Bayou Lafourche, the Intercostal Waterway, and the Gulf of Mexico. Also, Burlington Northern Santa Fe has maintained and operated the railroad infrastructure in the Parish. The U. S. Census has included the Parish as part of the Houma-Bayou Cane-Thibodaux Metropolitan Statistical Area.

The Parish continues to experience growth in its population since the 2010 Census. It has grown from 96,737 in 2010 to 98,617 in 2016 then dropped to 98,115 in 2018. The per capita personal income level for 2018 was \$47,096 as compared to \$44,192 in 2017 and \$40,279 in 2010. The unemployment rate was 4.1% as of June 30, 2019, which is lower than the state level of 4.4%, but higher than the nation level of 3.6%.

The largest segment of the economy was the oil and natural gas extraction industry but there are other aspects to the economy. LOOP, the single largest offshore port for foreign and domestic crude oil, can offload tankers with its three single-point mooring buoys. The facility has fifteen 600,000 barrel and seven 375,000 barrel tanks with a total capacity of 12 million barrels, and eight underground caverns with a total storage capacity of 60 million barrels. The port also operates a 53 mile, 48-inch pipeline that is connected to a 40-inch pipeline that connects to several Midwest refineries (<https://www.loopllc.com/About/History>).

The Greater Lafourche Port Commission (GLPC) announced the plans to construct an \$800 million Liquefied Natural Gas Facility on 105 acres located near the LOOP facility. It is expected to produce over 2 million tons of LNG annually.

The Port Fourchon, which is located at the mouth of Bayou Lafourche, is utilized by 250 companies to service about 400 large supply vessels and utilizing about 1,200 trucks on a daily basis (*About Us: Port Facts*, <http://www.portfourchon.com>). The activities conducted at the port are instrumental in supplying 10 percent of the nation's oil supply and is connected to 50% of the U. S. refining capacity. It facilitates 90% of the deep-water production. The Port also had a general aviation airport with a 6,500-foot runway that can handle up to 20-passenger business jets (*April 2013 Capital Projects Brochure*, <http://www.portfourchon.com>).

The GLPC has announced its plans to increase the size of Port Fourchon by 900 acres. The plan is to build a state of the art facility that will be used for repairing and refurbishing oilrigs. The plan also involves deepening its main channel to 50 feet.

In addition to those segments, the parish has a significant agricultural based segment of the economy that totaled \$121.8 million in 2018. The category *planting enterprises* had a gross value of \$69.8 million in 2018 mainly from sugar cane (\$33.6 million) and hay for sale (\$21.5 million). The *wildlife and fishery enterprises* segment totaled \$34.8 million, mainly from aquaculture (\$26.0 million) and marine fisheries enterprises (\$21.3 million). The *domestic animal enterprises* segment had a gross value of \$17.1 million mainly from the *cattle and calves* category (\$15.0 million).

Nicholls State University which opened in 1948 is located in the northern part of the parish on 287 acres. (*Fast Facts*, <http://www.nicholls.edu>). Nicholls has 17 academic, college, departmental and program accreditations. It offers degrees in its Arts and Sciences, Business Administration, Education, and Nursing and Allied Health colleges. The 2019 spring enrollment was 5,896 with 90.35% of the students enrolled in undergraduate programs, and 9.65% of the students enrolled in graduate programs. (<https://www.nicholls.edu/irep/>).

The economy also included agricultural-implement manufacturing, shipbuilding and machine fabrication.

**Long-term financial planning:** Since 1997, the school board has had an ongoing construction process. The goal of the process is to make sure that there is enough capacity to meet current needs with room for an expanding student body, and to make sure that those facilities optimize the learning experience for the students of the parish.

The School Board has been successful in obtaining the permission of the voters of the parish to fund its ongoing process of adding and improving its facilities. The following table shows the status of those bond referendums:

YEAR	in millions		
	AUTHORIZED	ISSUED	UNISSUED
1997	\$44.4	\$44.4	\$
2003	50.0	50.0	
2007	48.8	48.8	
2012	50.0	50.0	
2017	80.0	18.0	62.0
TOTAL	\$273.2	\$211.2	\$62.0

The payment of principal for the general obligation bonds are secured by a debt service millage which was 11.2 mills in FY19.

**Cash management:** The School Board had \$30.0 million in *Cash and cash equivalents* and \$33.7 million in *Investments* June 30, 2019 that were classified as follows:

CATEGORY	in millions		
	CASH AND EQUIVALENTS	INVESTMENTS	TOTAL
General	\$ 0.5		\$0.5
2012 Construction			
2017 Construction		25.7	25.7
Child Nutrition	4.4		4.4
Debt Service	3.9	8.0	11.9
Non-major	12.1		12.1
Statement C: Governmental	\$ 20.9	\$ 33.7	\$ 54.6
Group Health	1.2		1.2
Loss Control	0.4		0.4
Workers Compensation	1.0		1.0
Statement H - Proprietary	\$2.6		\$2.6
School Activity	4.4		4.4
Sales and Use Tax	2.1		2.1
Statement K - Agency	6.5		6.5
TOTAL	\$ 30.0	\$ 33.7	\$ 63.7

The School Board had a policy of depositing funds in either interest bearing demand accounts or certificates of deposit in commercial banks secured by pledged securities and federal deposit insurance. The School Board also deposited funds in the Louisiana Asset Management Pool (LAMP), which provided a higher rate than certificates of deposit with a maturity of less than one year and had been safer than directly purchasing securities of the U. S. Treasury.

The following table has a breakdown of the types of assets included in the category *Investments*:

INVESTMENT TYPE	(in millions)	
	6/30/2019	% of Total
Cash Equivalents, LAMP	\$ 20.1	59.6%
Fixed Income, Federal	12.7	37.7%

The assets were managed by Argent Financial Group (<http://www.argentfinancial.com/>), which based its selection on the School Board's investment policies and investment needs as expressed by School Board's management.

**Risk management:** The School Board's self-funded group health insurance program had a self-insured retention of \$300,000 for each medical claim. The School Board used Blue Cross/Blue Shield for the third-party administrative services. The *Net Position* total in the Group Health Insurance Fund was \$1.3 at June 30 that is up from the prior year balance of \$36,901. Claims expense accounts for the majority of the change. The School Board has been actively trying to reduce the growth in claims cost. Additional information regarding School Board efforts is described in the *Management Discussion and Analysis*.

The School Board established a Loss Control Fund to manage its non-workers compensation property and casualty perils. It has a consultant to evaluate the various exposures, to recommend changes in contract language to mitigate exposure, to review all certificates of insurance to determine if they meet minimum requirements, to recommend changes in its insurance policies to improve coverage and to conduct requests for proposals process as needed. The policies in force with the limits and self-insured retentions can be found in Note IV A *RISK MANAGEMENT*. The School Board also employees a third party administer to administer the Loss Control Fund's claims. At June 30, 2019, the Loss Control Fund had a *Net Position* balance of \$0.7 million, which is \$0.1 million more than it was for the prior year.

The School Board provided workers compensation coverage for its employees using a self-insured retention of \$550,000 and a \$2 million limit for each workers compensation claim. The School Board used the same consultant and third party to administer for the workers compensation program that were described in the previous paragraph. The assets in this fund are also used to provide an employee assistance plan that provides employees with a variety of services meant to help employees resolve personal issues that could eventually have an effect on their job performances. The funds were also used to pay for employee medical screenings and flu shots for those employees without health insurance coverage, and for certain safety related improvements. The *Net Position* for the Worker's Compensation fund was \$103,093 by June 30, 2019, which was up from the previous balance of \$22,446.

The School Board has obtained additional funding that should help stabilize claims cost for all non-group health claims. It has a four mill ad valorem tax to be used for safety and security issues. The millage has funded facility improvements to create single entry campuses, to purchase software that will improve response times during emergencies, and to purchase additional cameras to provide improved video monitoring of the campuses.

**ACKNOWLEDGMENTS**

The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire staff of the Business Department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

## **Independent Auditor's Report**

To the Members of the  
Lafourche Parish School Board  
Thibodaux, LA

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Lafourche Parish School Board (the School Board) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the School Board's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School Board, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Other Matters**

#### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 14 to 41, other post-employment benefits information, pension information, and notes to required supplementary information on pages 98 to 102 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School Board's basic financial statements. The combining and individual nonmajor fund financial statements, the schedule of compensation paid to board members, and the schedule of compensation, benefits and other payments to agency head are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying supplementary information referred to in the preceding paragraph is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, the schedule of compensation paid to board members, and the schedule of compensation, benefits and other payments to agency head or chief executive officer are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 31, 2019 on our consideration of the School Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School Board's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School Board's internal control over financial reporting and compliance.

This section has been prepared to give you management's perspective of the information contained in the financial statements.

- ❑ The total of assets reported in the government-wide statements is \$231.3 million, which was \$0.5 million more than the total from preceding year. Current assets reduced by \$3.5 million while noncurrent assets grew by \$4.0 million.
- ❑ Total governmental fund revenues in 2019 were \$168.2 million, an increase of \$5.7 million. Local sources increased by \$2.9 million, state sources increased by \$3.0 million while federal sources decreased by \$0.2 million.
- ❑ Total governmental fund expenditures in 2019 were \$170.1 million, which was an \$8.4 million decrease from the 2018 total. *Salaries and benefits* decreased by \$4.8 million, *Contracted services* decreased by \$3.1 million, *Supplies and property* increased by \$0.9 million, while *Debt service and other* expenditures decreased by \$1.4 million.
- ❑ Total Governmental fund balance in 2019 was \$44.5 million, which was \$1.9 million less than in 2018. The *Restricted* fund balance category decreased by \$10.1 million (mostly because of construction activities), the *Committed* balance increased by \$1.1 million and the *Unassigned* balance increased by \$7.3 million.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis has been presented to serve as an introduction to the Lafourche Parish School Board's basic financial statements. The School Board's basic financial statements have been divided into three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. Other information has been added to the basic financial statements themselves to supplement them.

**GOVERNMENT-WIDE FINANCIAL STATEMENTS:** The government-wide financial statements were designed to provide readers with a broad overview of the Lafourche Parish School Board's finances, in a manner similar to a private-sector business. These financial statements employed the accrual basis of accounting.

---

The Statement of Net Position (Statement A) was constructed to present information on all of the School Board's assets, deferred outflows, liabilities and deferred inflows, with the difference among these reported as net position. Over time, increases or decreases in net position could serve as a useful indicator of whether the financial position of the Lafourche Parish School Board is improving or deteriorating.

The Statement of Activities (Statement B) was constructed to present information showing how the government's net position changed during the most recent fiscal year in employing the accrual basis of accounting. All changes in net position were reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses were reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements of the Lafourche Parish School Board have presented only functions principally supported by taxes and functions of the intergovernmental revenues (governmental activities). The School Board did not have any functions that are intended to recover all or a significant portion of their cost through user fees and charges (business type activities).

The government-wide financial statements included only Lafourche Parish School Board itself (known as the primary government). The School Board does not have any component units that need to be reported separately from the financial information of the primary government.

**FUND FINANCIAL STATEMENTS:** The fund presentation grouped related accounts that were used to maintain control over resources that have been segregated for specific activities or objectives. The Lafourche Parish School Board, like other state and local governments, used fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the School Board were divided into three categories: governmental funds, proprietary funds and fiduciary funds.

***Governmental funds.*** Governmental funds were used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements employed the modified accrual basis of accounting that focused on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds was narrower than that of the government-wide financial statements, it was useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund Balance Sheet: Governmental Funds (Statement C) and the Statement of Revenues, Expenditures, and Changes in Fund Balances: Governmental Funds (Statement E) provided a reconciliation (Statements D and F) to facilitate this comparison between governmental funds and governmental activities.

The Lafourche Parish School Board maintained various individual governmental funds to account for its activities. The information accumulated using the individual governmental funds has been presented separately in the Balance Sheet: Governmental Funds (Statement C) and in the Statement of Revenues, Expenditures, and Changes in Fund Balances: Governmental Funds (Statement E) for the General, the 2017 Construction, the Child Nutrition, and the Debt Service Funds, all of which were considered to be major funds. Data from the other governmental funds has been combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds has been provided in the form of combining statements elsewhere in this report.

The School Board adopts an annual appropriated budget for its governmental funds. The Statement of Revenues, Expenditures, and Changes in Fund Balances- Budget and Actual (Statement G) is a budgetary comparison statement that has been provided for the government to demonstrate compliance with this budget.

The *Governmental Funds* are divided into two groups (budget funds and construction funds) when the differences between the amounts presented in the various financial statements for FY 2019 are compared to the amounts in FY 2018. The following is quick reference for fund categories.

**Proprietary funds.** The Lafourche Parish School Board maintained three proprietary type funds. The School Board used these internal service funds as accounting devices to accumulate and allocate costs internally among the School Board's various functions for its self-funded workers compensation, property and casualty perils, and group health insurance programs. Because the services predominantly benefited governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

The proprietary fund statements have provided the same type of information as the government-wide financial statements, only in more detail and employed the accrual basis of accounting. Statements H, I and J are the proprietary fund financial statements that provided separate information for the Workers Compensation, Loss Control and Group Health Insurance Funds.

**Fiduciary funds:** Fiduciary funds have been used to account for resources held for the benefit of parties outside the government. Fiduciary funds were not reflected in the government-wide financial statement because the resources of those funds are not available to support the Lafourche Parish School Board's own programs. The School Board is the sales and use tax collection agent for itself and seven other governmental entities, which are processed using the Sales Tax Agency Fund. The School Board also maintains 28 funds to account for the resources generated at the school level. The *Net Position* for the Sales Tax Agency and the School Activity Agency funds are included in Statement K.

**Notes to the financial statements.** The notes are presented to provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Other information.** In addition to the basic financial statements and accompanying notes, the report has provided additional information. Schedules 1, 2, 3 include required supplemental information. Schedule 1 provides supplementary information about the School Board's unfunded accrued liability for other post-retirement benefits. Schedules 2 and 3 provide supplemental information about the School Board's proportionate share of the net pension liabilities associated with the three retirement systems in which its employees participate and contribute thereto. Schedules 4 and 5 were presented to provide the combining statements referred to earlier in connection with non-major governmental funds. Schedule 6 was included to present information concerning board member compensation that was required by the state. Schedule 7 was included to comply with Act 706 of the 2014 Regular Session of the Louisiana Legislature. Finally, Schedule 8 has been included to present the schedule of federal assistance required as part of the "Single Audit".

Total current assets	\$ 0.6	\$ (14.7)	\$ 0.7	\$ (3.3)

The differences experienced in the *Budget Funds* column resulted from the activities anticipated in the 2019 Comprehensive Original Budget, a copy of which can be obtained by Business Department's webpage <https://www.mylpsd.com/groups/5591>.

The sale of bonds on November 19, 2017, which provided \$32.0 million in bond proceeds and \$1.2 million of premiums on bonds sold, increased the *Current Asset* category in the *Construction Funds*

column, while the payments for the ongoing projects reduced it by about \$15.0 million. The reduction of *Cash and cash equivalents* and reduction in *Investment* in the *Government Wide Adjustments* were due to the activities in the *Proprietary Funds*.

This table shows the differences between the FY 2019 and FY 2018 amounts reported in the Statement A *Noncurrent assets* category:

Construction in progress			(4.3)	(4.3)
Construction in progress			(0.2)	(0.2)
Total noncurrent assets	\$	\$	\$ 4.0	\$ 4.0

The changes to the *Capital assets* categories *Buildings and Improvements* and *Construction in Progress* were the result of the activities in the *Construction Funds*. The changes in the *Capital Assets* category *Furniture and equipment* were the result of the activities in the *Budget Funds*.

This table shows the differences between the FY 2019 and FY 2018 amounts reported in the Statement A *Deferred outflows of resources* category:

FUND	in millions	
		GOVERNMENT WIDE ADJUSTMENTS
Deferred outflows from bond refunding (net of amortization)	\$	(0.2)
Deferred outflows related to pensions		4.8
Deferred outflows related to other post-retirement benefits		4.0
Total deferred outflows	\$	8.6

The changes to the *Deferred outflows from bond refunding* category were from the 2018 amortization. The changes to the *Deferred outflows related to pensions* category resulted from the calculations involved in the determination of the School Board's share of the unfunded accrued liabilities in the various state-wide retirement systems. This is the initial presentation for the *Deferred outflows related to other post-employment benefits* so the total amount and the change amount are equal.

The changes in the *Construction Funds* category is mainly due to several projects that had substantially more work completed during the FY19 than was completed in FY18.

The \$0.6 increase in the *Long-term obligations due in one year* category was due to the addition of principal payments to be made on general obligation bonds. The \$191.8 decrease in the *Long-term obligations due after one year* was mainly from the recognition of a change in benefits for retirees under the other post employment benefits, reported as a special item in the amount of \$180,585,059 in the statement of activities. General obligation debt decreased \$7.9 million mainly due to the payment of bond principal.

The *Ad valorem taxes* increase was due to an increase in the values included in the net assessed valuation, which was a result of the issues related to the oil and gas extraction portion of the Lafourche economy. The increase in *Sales and use taxes* was partially due to a general increase in tax collections and partially due to settlements of pending sales and use tax litigation.

### FUND STATEMENT FINANCIAL ANALYSIS

As noted earlier, the Lafourche Parish School Board used fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds:** The focus of the Lafourche Parish School Board's governmental funds was to provide information on near-term inflows, outflows, and balances of spendable resources. Such information can be useful in assessing the School Board's financing requirements. In particular, unassigned fund balance has served as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The *Ad valorem taxes* increase was due to an increase in the values included in the net assessed valuation, which was a result of the issues related to the oil and gas extraction portion of the Lafourche economy. The increase in *Sales and use taxes* was partially due to a general increase in tax collections and partially due to settlements of pending sales and use tax litigation.

Total Expenditures	\$ (7.1)	\$ (1.3)	\$ (8.4)

The following shows the differences between the FY 2019 and FY 2018 expenditure amounts for the *Budget and Construction Funds* by function (what was it spent for) and by object (what was it spent on):

CATEGORY	in millions				
	SALARY AND BENEFITS	CONTRACTED SERVICES	SUPPLIES AND PROPERTY	DEBT SERVICE AND OTHER	TOTAL
Instruction	\$ (1.9)	\$ 0.2	\$ 0.2	\$	\$ (1.5)

Appropriations to type 1 charter schools				0.6	0.6
Total Expenditures	\$ (4.8)	\$ (3.1)	\$ 0.9	\$ (1.4)	\$ (8.4)

The *Salary and Benefits* category was decreased by \$4.8 million mostly due to the activities in the funds included in the 2019 *Comprehensive Original Budget*. The *Supplies and Property* category increased by \$0.9 million because of the activities in the construction funds. Finally, the *Debt Service and Other* category was reduced by \$1.4 million as the general obligation principal and interest payments included in the repayment schedules declined.

**Proprietary Funds:** The School Board used three funds to account for its internal service activities: the Group Health Fund that accounts for the activities associated with the Board's self-funded group health program; the Loss Control Fund that accounts for the activities associated with the Board's

LAFOURCHE PARISH SCHOOL BOARD

self-funded property and casualty program; and the Workers Compensation Fund that accounts for the activities associated with the Board's self-funded workers compensation program.

The following table contains a summary and comparison of the amounts included in Statement H *Statement of Net Position: Proprietary Fund Type: Internal Service Funds* for FY 2019 and FY 2018:

CATEGORY	in millions

The increase in the Cash and cash equivalents category is directly related to the board's efforts to stabilize the Group Health Fund by moving the retiree participants to the Humana Group Medicare Plan, as is the increase in the *Total net position* category.

The *Loss Control Fund* had a net income of \$0.1 million for FY19. The \$1.3 million change to the *Group Health Fund* was largely due to the movement of retiree participants to the Humana Group Medicare Advantage plan as previously discussed. The *Workers Compensation Fund* had a better claims year with expenses decreasing by \$0.3 million from 2018.

**Fiduciary funds:** The School Board had two fiduciary funds that it used to account for the assets it holds in trust. The School Activities Fund accounted for the funds that the individual schools control, and the Sales and Use Tax Fund accounted for the collection and disbursement of sales and use taxes it collects for itself and for the other tax levying authorities in the parish.

**GOVERNMENTAL FUND BUDGETARY HIGHLIGHTS**

The *General Fund* revenues were higher than anticipated with a positive variance of \$0.7 million mostly due to the actual amounts collected in tax revenue previous highlighted. General Fund expenditures were \$3.3 million less than anticipated in the budget mostly due to reductions in salaries and benefits. The *Other financing sources (use)* category had a negative variance of \$0.2 million.

The *Debt Service Fund* had a \$0.2 million positive variance in the *Ad Valorem Tax* category due to actual amounts collected as previously discussed. In total, the *Debt Service Fund* had a net change in fund balances positive variance of \$0.3 million.

**CAPITAL ASSET AND DEBT ADMINISTRATION**

**Capital assets:** The net balance in capital assets for the School Board at June 30 was \$161.6 million. The following has been presented to recap the capital asset balances.

CATEGORY	in millions			
	COST	ACCUMULATED DEPRECIATION	NET BALANCE	
			6/20/2019	6/30/2018

Total	\$ 276.3	\$ 114.7	\$ 161.6	\$ 157.6

The total net balance increased by \$12.4 million, mostly from activities in the Construction Funds, and was increased by \$8.4 million because of depreciation.

At June 30, 2019, the School Board had a *Restricted Capital Projects* fund balance available for future capital expenditures of \$13.6 million most of which is from the unexpended general obligation bond proceeds.

**Long-term debt:** The following is a recap for the various types of long-term debt outstanding:

DESCRIPTION	in millions					
	BONDED DEBT	CERTIFICATES OF INDEBTEDNESS	COMPENSATED ABSENCES	OTHER POST EMPLOYMENT BENEFITS	NET PENSION LIABILITY	TOTAL
Long-term obligations at July 1, 2018	\$99.5	\$1.3	\$6.0	\$310.9	\$175.7	\$593.5
Additions			0.3	27.6	6.1	34.0
Deductions	7.9	0.4	0.4	9.7	27.3	45.7
Change in accounting principle				180.6		180.6
Long-term obligations at June 30, 2019	\$91.6	\$0.9	\$5.9	\$148.2	\$154.6	\$401.2
Due within one year	\$7.4	\$0.4	\$0.4	\$	\$	\$8.2
Due in more than one year	\$84.2	\$0.5	\$5.5	\$148.2	\$154.6	\$393.0

The ensuing discussion will focus of the three largest segments of the long-term debt total, *General Obligation Bonded Debt* (22.8% of long-term debt), *Other Post-Employment Benefits* segment (36.9%) and *Net Pension Liability* (38.5%).

The *General Obligation Bonded Debt* balance was \$91.6 million at June 30, 2019 while the related Debt Service Fund balance was \$12.0 million. The ratio of net bonded debt to total assessed property (see Table 12) decreased to 7.0% in 2019 from 7.6% in 2018, while the legal debt margin was increased to \$492.2 million in 2019 from \$480.2 million in 2018. In addition, the ratio of debt service expenditures to noncapital expenditures (see Table 6) increased slightly to 8.80%.

The Board's bond rating S&P Global Ratings was downgraded from an *A+/Stable* issued on November 6, 2017 to an *A-/Negative* issued on August 10, 2018. The reason for the downgrade was because of the reductions in property tax assessments, declines in sales and use tax revenue, and because of low fund balance levels.

The balance recognized for the *Other Post-Employment Benefits* liability at June 30, 2019 was \$148.2 million. The change in accounting principle was the main reason that the balance decreased from the 2018 balance of \$310.9 million. The School Board does not have any plans at this point to fund the balance of this accrual. Additional information is provided in note IV.C. *Post Employment Health Care and Life Insurance Benefits*.

The School Board recognized its share of the net pension liability in the three retirement systems to which it contributes. The balance of the liability at June 30, 2019 was \$154.6, down from \$175.7 million in the prior year. A detailed discussion is included in the IV.D. *DEFINED BENEFIT PENSION PLANS* of the *Notes to the Financial Statements*.

The following presents a three-year recap of revenues by source with a presentation of the difference between the fiscal year 2018 and fiscal year 2019 amounts

<i>DESCRIPTION</i>	<i>ACTUAL 6/30/2017</i>	<i>ESTIMATED ACTUAL 6/30/2018</i>	<i>COMBINED ORIGINAL BUDGET 6/30/2019</i>	<i>DIFFERENCE</i>
41000 Taxes	\$ 72.16	\$71.81	\$67.84	\$ (3.97)

Total Revenues	\$ 161.76	\$ 161.78	\$ 155.36	\$ (6.41)

The decrease in the *41999 Other Local Revenue* category is mostly from taxes, which were reduced by \$4.0 million in the 41000 Taxes category.

The decrease in *44999 Federal Revenue* was mainly from the E.S.S.A. Title I grant. The State recommends that local agencies not budget all of their allocation because of uncertainties in federal funding.

The following presents a three-year recap of expenditures by source with a presentation of the difference between the fiscal year 2018 and fiscal year 2019 amounts:

DESCRIPTION	ACTUAL 6/30/2017	ESTIMATED ACTUAL 6/30/2018	COMBINED ORIGINAL BUDGET 6/30/2019	DIFFERENCE
50100 Salaries	\$ 80.84	\$ 76.63	\$ 74.92	\$ (1.71)
50200 Employee Benefits	35.85	34.85	33.56	(1.28)
50300 Professional and Technical Services	4.63	4.03	4.03	
50400 Purchased Property Services	6.57	5.86	4.69	(1.18)
50500 Travel and Transportation	5.54	5.34	5.81	0.48
50600 Materials and Supplies	15.04	12.67	13.49	0.82
50700 Property	0.65	0.67	0.46	(0.21)
50800 Debt Services and Other Expenditures	14.70	14.12	12.14	(1.99)
Appropriations to Type 1 Charter Schools	8.97	8.58	8.57	(0.01)
<b>Total Expenditures</b>	<b>\$ 172.78</b>	<b>\$ 162.75</b>	<b>\$ 157.67</b>	<b>\$ (5.08)</b>

The expenditure portion of the budget was constructed according to the plan outlined in the *Possible Budget Reductions* report adopted by the School Board during its May 7, 2018 regular meeting. The reductions anticipated in that report were based on the expenditure level in the 2018 Original Budget. The 2018 Original Budget anticipated \$120.3 million in General Fund expenditures; the 2019 Original Budget has only \$115.0 million of expenditures, a \$5.4 million reduction from the 2018 Original Budget. The administration was able to keep the FY18 General Fund expenditures \$2.3 million less than was included in the 2018 Original Budget.

The difference column in *Table 4* is the difference between the estimated actual for FY18 and the budget for 2019. The *50100 Salaries* category General Fund was reduced by about \$1.2 million by following the plan discussed in the previous paragraph and by \$0.8 million from the reduction in E.S.S.A. Title I grant funding.

The \$1.3 million reduction in *50200 Employee Benefits* category came from a \$0.9 million reduction in General Fund benefits and a \$0.3 million reduction in E.S.S.A. Title I benefits.

The decrease in *50400 Purchased Property Services* of \$1.2 million was mainly due to the reduction in the bus rental contract of \$1.3 million that was achieved by reducing bus routes by about 30.

The \$2.0 million reduction in the *50800 Debt Services and Other Expenditures* category was mainly due to the reduction in debt anticipated in the general obligation bonded debt schedules.

Progress Ranking Index	96.9	3
Strength Of Diploma	116.2	2
High School Assessment Index	86.4	5
Top Gains Schools	22	
Equity Honoree Schools	8	

As you can see 22 of the District's 28 schools were in the *Top Gains School* category. Eight of the District's schools were in the Equity Honoree School category by outperforming 90% of all schools in the state across for the various student groups and were not in *Urgent Intervention Required* for any reason in any group.

Reconciliation of the Governmental Fund Balance Sheet  
To the Statement of Net Position  
June 30, 2019

Fund balances of governmental funds		\$ 44,552,294
Amounts reported for governmental activities in the statement of net position are different because:		
Capital Assets used in governmental activities are not financial resources and, therefore are not reported in fund balance.		
Land	3,601,923	
Buildings and improvements (net of accumulated depreciation)	141,008,265	
Equipment (net of accumulated depreciation)	2,318,420	
Construction in progress	<u>14,712,327</u>	
		161,640,935
Long term liabilities, including general obligation bonds payable and associated premiums and discounts, are not due and payable in the current period and therefore are not reported in the funds.		
Deferred charges from bond refunding (net of amortization)	1,898,827

General obligation bonds payable	(91,575,000)	
Certificates of indebtedness payable	<u>(905,000)</u>	
		(95,146,917)
The government-wide financial statements must accrue expenses as a liability is incurred, whereas governmental funds do not recognize an expense or liability for certain liabilities until they are due (for example, compensated absences).		
Share of unfunded pension liability	(154,560,194)	
Deferred inflows from pensions	(35,433,932)	
Deferred outflows from pensions	28,460,906

Statement F

Reconciliation of the Statement of Revenues, Expenditures and Changes in  
Fund Balances to the Statement of Activities  
For the Year Ended June 30, 2019

Net change in fund balances - total governmental funds (\$1,923,659)

Amounts reported for governmental activities in the statement of activities are different because:

Payments on long term liabilities, including general obligation bonds payable and accrued interest, are reported as expenditures in the funds, but as a reduction of liability in the governmental-wide financial statements.

General obligation bonds principal expended	7,940,000	
Certificate of indebtedness principal expended	400,000	
Amortization of premiums on bonds sold	499,699	
Amortization of loss from bond refunding	<u>(197,880)</u>	
		8,641,819

The government-wide financial statements must accrue expenses as a liability as incurred, whereas governmental funds do not recognize an expense or liability for certain liabilities until they are due (for example, compensated absences).

Change in share of unfunded pension liability and related deferred inflows and outflows	12,430,924	
Change in unfunded portion of accrued other post employment benefits	174,146,414	
Change in compensated absences payable	128,654	
Change in accrued interest payable on general obligation bonds	<u>90,916</u>	
		186,796,908

Governmental funds report capital outlay as expenditures; however, in the statement of activities the cost of the assets is allocated to expenses over the life of the asset through depreciation expense.

Capital outlay expenditures	12,771,823	
Current depreciation expense and removal of assets	<u>(8,769,752)</u>	
		4,002,071

For purposes of consolidation, internal service funds are presumed to operate on a strictly "break-even" basis. Therefore any internal profit or loss must be eliminated.

Group Health Fund	1,275,996	
Loss Control Fund	132,664	
Workers Compensation Fund	<u>80,647</u>	
		<u>1,489,307</u>

Change in net position of governmental activities \$ 199,006,446

**I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Lafourche Parish School Board was created under Louisiana Revised Statute (LRS) 17:51 for the purpose of providing free public education for the children within Lafourche Parish. The School Board has been authorized by (LRS) 17:81 to establish policies and regulations for its own government that are consistent with the laws of the State of Louisiana and the regulations of the Louisiana Board of Elementary and Secondary Education. The School Board is comprised of 15 members who have been elected from 15 districts for a term of four years.

The School Board operates 29 schools and authorized two charter schools within the parish with a total enrollment at the end of June 30, 2019 of 14,445 (14,511 in 2018). In conjunction with the regular educational programs, some of these schools offer special education programs. Additionally, the School Board provides transportation and school food services for the students. The following table includes the student enrollment by grade level as of June 30, 2019:

GRADE LEVEL	6/30/2019	6/30/2018	DIFFERENCE
Pre-school/ pre-kindergarten	871	870	1
Kindergarten	1,040	1,017	23
1	1,064	1,091	(27)
2	1,077	1,056	21
3	1,066	1,150	(84)
4	1,102	1,155	(53)
5	1,157	1,150	7
6	1,164	1,048	116
7	1,052	1,035	17
8	1,027	1,060	(33)
9	1,137	1,075	62
10	983	1,014	(31)
11	850	837	13
12	855	953	(98)
<b>TOTAL STUDENT ENROLLMENT</b>	<b>14,445</b>	<b>14,511</b>	<b>(66)</b>

The above count included 951 students in grades kindergarten through 12 attending the Bayou Community Academy Charter School (BCA) and Virtual Academy of Lafourche (VAL). BCA and VAL are Type 1 charter schools operated by non-profit corporations according to the provisions in Louisiana R.S. 12:201-12:269 (1950 as amended) and the terms of the agreement between it and the School Board.

**A. REPORTING ENTITY**

The School Board complies with U.S. Generally Accepted Accounting Principles (GAAP). The School Board's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements. GASB Statement No. 14, *The Financial Reporting Entity*, as amended by both GASB No. 39, *Determining Whether Certain Organizations Are Component Units* and GASB No. 61, *The Financial Reporting Entity: Omnibus* establishes the criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under provisions of this Statement, the School Board is considered a primary government.

The School Board has no component units, as defined by the standards. There are no other primary governments with which the School Board has a significant relationship. Certain units of local government, over which the School Board exercises no oversight responsibility, such as the parish police jury, other independently elected parish officials, and municipalities within the parish, are excluded from the financial statements. These units of government are considered separate reporting entities and issue financial statements separate from that of the School Board. The School Board is not a component unit of any other entity.

**B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**

The government-wide financial statements (i.e. the statement of net position and the statement of activities) have reported information on all of the non-fiduciary activities of the primary government. For the most part, the effect of the interfund activity has been removed from these statements.

The statement of activities has demonstrated the degree to which the direct expenses of a given function or segment were offset by program revenues. Direct expenses were those that were clearly identifiable with a specific function. Program revenues included 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that were restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues were reported instead as general revenues.

Separate financial statements were provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter were excluded from the government-wide financial statements. Major individual governmental funds were reported as separate columns in the fund financial statements.

The accompanying financial statements of the Lafourche Parish School Board have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. GASB has been the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

**C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION**

The government-wide financial statements were reported using the economic resources measurement focus and the accrual basis of accounting, as were the proprietary fund and fiduciary fund financial statements. Revenues were recorded when earned and expenses were recorded when a liability was incurred, regardless of the timing of related cash flows. Ad valorem taxes were recognized as revenues in the year for which they were levied. Sales and use tax revenues were recognized when the underlying sale occurred. Grants and similar items were recognized as revenue as soon as all eligibility requirements imposed by the provider were met.

Governmental fund financial statements were reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues were recognized as soon as they were both measurable and available. Revenues were considered to be available when they were collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenue to be available if they were collected within 60 days of the end of the current fiscal period, except for grants revenue which is considered revenue if collected within the ensuing year. Expenditures generally were recorded when a liability had incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, claims and judgments, and post-employment and retirement benefits were recorded only when payments were due.

Other financing sources (uses) were shown in the fund financial statements and represented non-revenue inflows and non-expenditure outflows that affected fund balance. This section included items such as transfers between funds that were not expected to be repaid, capital lease transactions, insurance proceeds, debt extinguishments, long-term debt proceeds, et cetera. These other financing sources (uses) were recognized at the time the underlying events occur.

The Lafourche Parish School Board reports the following governmental funds:

**MAJOR**

**General** – is the general operating fund of the School Board. It accounts for all financial resources except those required to be accounted for in other funds.

**2017 Construction** – is used to account for the financial resources received and that were restricted to the acquisition, construction, or improvement of capital facilities approved by the voters on April 29, 2017.

**Child Nutrition** – is used to account for the revenues from the operation of the School Board's Child Nutrition program, for the interest accrued on the accumulated balance, and for the related expenditures which were committed for the operation of the School Board's child nutrition program.

---

Debt Service – is used to account transactions relating to resources, including interest earned, retained and used for the payment of principal and interest on long-term obligations.

NON-MAJOR

Salary Supplement – is to account for the proceeds from the Salary Supplement ad valorem tax, for the interest accrued on the accumulated balance, and for the related expenditures which were restricted for the support of salaries and benefits of the Lafourche Parish School Board employees.

Air Conditioning Maintenance – is used to account for the proceeds from the Air Conditioning Maintenance ad valorem tax, for the interest accrued on the accumulated balance, and for the related expenditures which were restricted for maintaining the School Board’s maintenance programs including those for the air conditioning systems of the schools in the parish.

Safety Tax – is used to account for the proceeds from the Safety ad valorem tax, for the interest accrued on the accumulated balance, and for the related expenditures which were restricted expenditures related to the district’s safety program.

Retirement Supplement – is used to account for the proceeds from the Retirement Obligations ad valorem tax, for the interest accrued on the accumulated balance, and for the related expenditures which were restricted for supplementing the charges for the unfunded accrued liability of the various state retirement systems.

1995 Sales Tax Salary Reserve – is used to account for the proceeds from the 1995 sales and use tax, for the interest accrued on the accumulated balance, and for the related expenditures which were restricted for salaries.

1995 Sales Tax Textbook Reserve – is used to account for the proceeds from the 1995 sales and use tax, for the interest accrued on the accumulated balance, and for the related expenditures which were restricted for the district’s textbook program.

1995 Sales Tax Technology Reserve – is used to account for the proceeds from the 1995 sales and use tax, for the interest accrued on the accumulated balance, and for the related expenditures which were restricted to improving technology in the district.

Medicaid – is used to account for revenues derived from providing Medicaid eligible services to the School Board’s students, for the interest accrued on the accumulated balance, and for the related expenditures which were committed to the support of the School Board’s school nurse program and for the other support of the School Board’s student population

Major Maintenance – is used to account for the revenues from mineral extraction royalties and from interest accrued on the accumulated balance that was committed for the funding of major maintenance projects.

Sixteenth Section Land – is used to account for the revenues derived from surface and subsurface annual lease payments, from proceeds from 16th section land lawsuits, and from the interest accrued on the accumulated balance that was committed for the funding the preservation or enhancement of the School Board’s Section Sixteen properties.

Local Grants – is used to account for the reimbursable grants received from the Lafourche Education Foundation or other local sources of grant funding.

State Grants – is used to account for the various state reimbursable grants received from the State of Louisiana.

Other Federal Grants Direct – is used to account revenues from the federally financed Indian Act Program to encourage the preservation of Indian traditions and to develop pride in the Indian heritage among those Indian children located in the southern portion of the parish and the Project Aware – Now is the Time program that assists local educational agencies to support the training of school personnel and other adults who interact with youth in both school settings and communities to detect and respond to mental illness in children and youth, including how to encourage adolescents and their families experiencing these problems to seek treatment

Every Student Succeeds Act – is used to account for the E. S. S. A. funds including Title I, Title 1 Part C (Migrant), Title II, Title III English Language Acquisition, and Title IV. These grants provided funding for the economically and educationally deprived school children in the parish, for migratory children to overcome educational disruption, cultural language barriers, social isolation, and other factors that inhibit the ability of such children to achieve high academic standards, to teach English to limited English proficient students, and to reduce class sizes.

Individuals with Disability Education Act – is used to account for the I. D. E. A. funds that are part of the ongoing federally financed program that ensures a free education in the least restricted environment to children with exceptionalities.

Other Federal Pass Through – is used to account for all other federal reimbursable grants not accounted for in the Other Federal Grants Direct, Every Student Succeeds Act, or Individuals with Disabilities Education Act were accounted for in this fund.

2003 Construction – is used to account for the financial resources received and that were restricted to the acquisition, construction, or improvement of capital facilities approved by the voters on July 19, 2003.

2007 Construction – is used to account for the financial resources received and that were restricted to the acquisition, construction, or improvement of capital facilities approved by the voters on July 21, 2007.

---

2012 Construction – is used to account for the financial resources received, including interest earned, and restricted to the acquisition, construction, or improvement of capital facilities approved by the voters on April 21, 2012.

Hurricane Recovery – is used to account for the insurance proceeds and certain additional aid from state and federal sources that was restricted to expenditures that resulted from Hurricanes Gustave, Ike and Isaac.

Additionally, the Lafourche Parish School Board reported the following other fund types:

**PROPRIETARY FUNDS:** Internal service funds account for the cost of general liability, building and contents, auto/fleet, workers compensation and group health insurance services provided to other departments on a cost-reimbursement basis. Internal service funds (proprietary fund types) differ from governmental funds in that their focus is on income measurement, which, together with the maintenance of equity, were an important financial indicator, so full accrual accounting is employed.

**FIDUCIARY FUNDS:** Agency funds are used to account for the activities of the individual schools and for the collection of sales and use taxes, which were held for several other governmental agencies and the General Fund. The agency funds included in the statement are of a fiduciary fund type, are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Application of the accrual basis of accounting may, at times, require use of certain private sector standards issued by the Financial Accounting Standards Board (FASB) prior to November 30, 1989. In determining which of those standards to apply, the School Board follows the guidance included in GASB Statement No. 62 – *Codification of Accounting and Financial Reporting Guidance Contained In Pre-November 30, 1989 FASB and AICPA*.

The effect of interfund activity has been eliminated from the government-wide financial statements, except for that representing sales tax revenue awaiting distribution from the fiduciary funds to the governmental funds.

Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of borrowings for capital asset acquisition, construction, or improvement of those assets, increased by deferred outflows of resources attributable to capital asset acquisition, construction or improvement, and deferred inflows of resources attributable to either capital asset acquisition, construction, or improvement or to capital asset related debt. Capital-related debt or deferred inflows equal to unspent capital asset related debt proceeds or deferred inflows of resources is included in calculating either restricted or unrestricted net position, depending upon whether the unspent amounts are restricted.

---

Proprietary funds distinguished operating revenues and expenses from non-operating items. Operating revenues and expenses generally resulted from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the government's internal service funds were charges to the other funds for the cost of general liability, building and contents, auto/fleet, workers compensation and group health insurance. The operating cost of the internal service funds included the claims and reinsurance expenses of the program. All revenues and expenses not meeting this definition were reported as non-operating revenues and expenses.

**D. ASSETS, DEFERRED OUTFLOWS, LIABILITIES, DEFERRED INFLOWS AND NET POSITION**

**1. Deposits and Investments**

Cash included amounts in demand deposits, interest bearing demand deposits, time deposits and bank money market accounts. Under state law, the School Board may have deposit funds in demand deposits, interest bearing demand deposits, money market accounts, or time deposits within state banks organized under the laws of the state of Louisiana, and national banks having their principal offices in Louisiana.

**2. Interfund Receivables and Payables**

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables were classified as due from other funds or due to other funds on the balance sheet. Short-term interfund loans were classified as interfund receivables/ payables.

**3. Inventories and Prepaid Items**

Inventories of the Special Revenue - Child Nutrition Fund consist of food and supplies purchased by the School Board and commodities granted by the United States Department of Agriculture through the Louisiana Department of Education. The commodities were recorded as revenue when received (issued); however, all inventory were recorded as expenditures when consumed. All purchased inventory items were valued at cost determined by specific identification, and commodity inventory items were assigned values based on information provided by the United States Department of Agriculture.

The unexpired portion of insurance represents costs applicable to future accounting periods and was recorded as a prepaid item in the government-wide and proprietary fund statements. All other prepaid items were shown as expenses or expenditures in the year they were paid.

**4. Capital Assets**

Capital assets, which included land, buildings, improvements other than buildings, and furniture and equipment were reported in the governmental activity column in the government-wide financial statements. The board included all land and buildings in its capital asset inventory. Furniture and equipment had to meet all of the following criteria to be included:

- The item will last more than one year.
- It was nonexpendable; that is, if damaged or worn out, it can be repaired without being replaced.
- It did not lose its identity through fabrication or incorporation into a different or more complex unit.
- Its unit cost exceeded \$5,000.

The land, buildings and improvements, and furniture and equipment were valued at historical cost. Donated items were valued at approximate fair market value at the time of donation. For all buildings and improvements that were acquired prior to June 30, 1998, an independent appraisal company has supplied the estimated dates of acquisition and estimated original costs that were developed from information provided by inspection of the property, and accepted appraisal costing techniques relating current cost of reproduction to historical cost of reproduction.

The costs of normal maintenance and repairs that did not add to the value of the asset or materially extend the asset's life were not capitalized.

Buildings, other improvements and equipment were depreciated using the straight-line method over the following estimated useful lives:

Asset Type	Years
Buildings	25 to 45
Improvements other than buildings	10 to 25
Furniture and Equipment	5 to 20

**5. Deferred Outflows of Resources**

Deferred outflows represent the consumption of the government's net position that is applicable to a future reporting period. The *Deferred charges from bond refundings* consisted of losses on general obligation bond refunding activities net of related amortization. The losses associated with the refunding activities were computed by subtracting the book value of the refunded debt from the payments to the escrow agent. The losses from refunding have been amortized over the life of

the general obligation refunding bonds issued. The School Board has also included the *Deferred outflows related to pensions* as discussed in Note IV.D. DEFINED BENEFIT PENSION PLANS and *Deferred outflows related to other post-employment benefits* as discussed in Note IV.C. POST EMPLOYMENT HEALTH CARE AND LIFE INSURANCE BENEFITS.

## 6. Compensated Absences

Sick Leave has been earned based on School Board policy *GBRIB Sick Leave* of the Lafourche Parish School Board Policy Manual and is both accumulated and vested. Twenty-five of the vested days are paid to the employee upon retirement. The remainder is used by the retirement systems in the calculation of benefits earned.

Annual (vacation) Leave has been earned based on School Board policy *GBRIK Annual Leave* of the Lafourche Parish School Board Policy Manual. It is accumulated and vested to all full-time employees with contracts of 230 days or more. Such employees earned 5-20 days of annual leave depending on date of employment and length of service with the School Board. In the fiscal years that ended before July 1, 2004, Annual Leave could be accumulated without limit. The policy was amended in July 2004 to limit the accumulation to 25 days and to provide for the grandfathering in of any accumulation prior to July 1, 2004 that exceeded 25 days.

The cost of current sick leave and annual leave privileges, has been computed in accordance with GASB Codification Section C60, and has been recognized as current year expenditures in the governmental funds when leave was taken. The liability for these sick leave and annual leave privileges, not requiring current resources, has been recorded as long-term debt in the government-wide statements.

Sabbatical leave has been earned based on School Board policy *GBRHA Sabbatical Leave* of the Lafourche Parish School Board Policy Manual. It could have been granted for medical leave and for professional and cultural improvement. Any employee with a teaching certificate was entitled, subject to approval by the School Board, to one semester of sabbatical leave after three years of continuous service or two semesters of sabbatical leave after six or more years of continuous service. Sabbatical leave benefits were recorded as expenditures in the period in which paid.

## 7. Long-term Obligations

Long-term obligations expected to be financed from governmental funds were accounted for as liabilities in the government-wide statements. Expenditures for principal and interest payments for long-term debt were recognized in the governmental funds when due.

## 8. Deferred Inflows

Deferred inflows represent the acquisition of net assets by the government that is applicable to a future reporting periods. The School Board has included the *Deferred inflows related to pensions* calculation in the Note IV.D. *DEFINED BENEFIT PENSION PLANS*. The School Board has also included the *Deferred inflows related to other post employment benefits* calculation in the Note IV.C *POST EMPLOYMENT HEALTH CARE AND LIFE INSURANCE BENEFITS*.

## 9. Pension Plans

The Lafourche Parish School Board is a participating employer in three defined benefit pension plans (plans) as described in IV.D. *DEFINED BENEFIT PENSION PLANS*. For purposes of measuring the Net Pension Liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of each of the plans, and additions to/deductions from each plans' fiduciary net position have been determined on the same basis as they are reported by each of the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments have been reported at fair value within each plan.

## 10. Equity Classifications

Equity were classified as net position and displayed in three components on the Government-wide Statements:

- ❑ Net investment in capital assets - Consisted of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that were attributable to the acquisition, construction, or improvement of those assets.
- ❑ Restricted net position - Consisted of net position with constraints placed on use by either (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments: or (2) law through constitutional provisions or enabling legislation.
- ❑ Unrestricted net position - Consisted of net position that do not meet the definition of "restricted" or "net investment in capital assets".

Net position balances will be spent according to their restrictions. When expenditures are incurred for purposes for which both restricted and unrestricted fund balances are available, the School Board's policy is to first apply restricted net position balance.

In the fund financial statements, governmental fund equity was classified as fund balance. The School Board adopted GASB Statement No. 54 *Fund Balance Reporting*

LAFOURCHE PARISH SCHOOL BOARD  
Notes to the Financial Statements  
June 30, 2019

---

*and Governmental Fund Type Definitions* for the year ended June 30, 2011. This statement established criteria for classifying fund balances into specifically defined classifications and clarified definitions for governmental fund types. The following described the different classifications available for fund balances of governmental funds:

- a) Nonspendable – Amounts that could not be spent either because they were in nonspendable form or because they were legally or contractually required to be maintained intact.
- b) Restricted – Amounts that could be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that were externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.
- c) Committed – Amounts that could be used only for specific purposes determined by a formal action of the Lafourche Parish School Board which were the highest level of decision making authority. Commitments could have been established, modified or rescinded only through resolutions approved by the School Board.
- d) Assigned – Amounts that did not meet the criteria to be classified as restricted or committed but that were intended to be used for specific purposes. Amounts could only be assigned by the School Board or its administration.
- e) Unassigned – all other spendable amounts.

When both restricted and unrestricted fund balances were available for use, it is the Board's policy to use restricted fund balance first, followed by committed, and unassigned amounts, respectively.

#### **11. Accounting Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions. Those estimates affect the reported amounts of assets and liabilities and disclosure of assets and liabilities at the date of the financial statements. They may also affect the reported amounts of revenues and expenses of proprietary funds and the government-wide financial statements during the reporting period. Actual results could differ from these estimates.

#### **E. ADOPTION OF NEW ACCOUNTING PRINCIPLE**

The School Board has adopted the Governmental Accounting Standard's Board Statement No. 88 Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements: The primary objective of this Statement is to improve the

LAFOURCHE PARISH SCHOOL BOARD  
Notes to the Financial Statements

---

information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. For notes to financial statements related to debt, this Statement also requires that existing and additional information be provided for direct borrowings and direct placements of debt separately from other debt. The adoption of this Statement did not have a significant impact on the school board's financial statements.

**F. CURRENT ACCOUNTING STANDARDS SCHEDULED TO BE IMPLEMENTED**

The Governmental Accounting Standards Board has several other statements that will be implemented in the near future. They are:

- *Statement No. 84 Fiduciary Activities:* The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018 (June 30, 2020).
- *Statement No. 87 Leases:* The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2019 (June 30, 2021)
- *Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period:* The objectives of this Statement are to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and to simplify accounting for interest cost incurred before the end of a construction period. This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019 (June 30, 2021).

The School Board has not determined, at this time, the effects on its net position for the years ending June 30, 2020 and June 30, 2021 that will result from implementing of these statements.

## II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

### A. BUDGETARY INFORMATION

At the September 2018 meeting of the School Board, the superintendent submitted a consolidated budget prepared on the modified accrual basis of accounting to the School Board, so they can review it before public inspection. The budget contains the estimate of revenues and proposed expenditures for the General, Special Revenue, and Debt Service funds. The school board was not required, and did not prepare annual budgets for the Capital Projects Funds.

A public hearing was conducted at the School Board office to obtain taxpayer comments. After this public hearing, the budget was enacted by the board on September 12, 2018. This process had to be completed by September 15 of the applicable budget year.

State law required budget amendments if revenues will be short of estimates or if expenditures will exceed estimates by 5% or more. The superintendent was authorized to make changes within the various budget classifications provided that any reallocation of funds affecting more than five percent (5%) of the projected revenue collections must be approved in advance by action of the School Board. The results were compared monthly, starting in September.

The current fiscal year budget was amended on July 03, 2019. The original and amended budgets are reflected in Statement G.

### B. RESTRICTED, COMMITTED, ASSIGNED AND UNASSIGNED FUND BALANCES

The *Restricted for salaries and benefits* balance includes the unexpended portion of the 1995 1¢ sales tax devoted to salaries that has been recorded in the Non-Major Fund – *1995 Sales Tax Salary Reserve Fund*, the unexpended proceeds of the property tax dedicated to salaries that has reported in the Non-Major Fund – *Salary Supplement Fund*, and the unexpended proceeds of the property tax dedicated to retirement that has been reported in the Non-Major Fund – *Retirement Supplement Fund*.

The *Restricted for textbooks* balance includes the unexpended portion of the 1995 1¢ sales tax devoted to textbooks that has been reported in the Non-Major Fund – *1995 Sales Tax Textbook Reserve Fund*.

The *Restricted for technology* balance includes the unexpended portion of the 1995 1¢ sales tax devoted to technology that has been reported in the Non-Major Fund – *Sales Tax Technology Reserve Fund*.

The *Restricted for maintenance* balance includes the unexpended proceeds of the property tax dedicated to maintenance including maintaining the air conditioning systems of the

schools that has been reported in the Non-Major Fund – *Air Conditioning Maintenance Fund*.

The *Restricted for safety* balance includes the unexpended proceeds of the property tax dedicated to facility upgrades and ongoing support related the district’s safety initiatives and has been reported in the Non-Major Fund – *Safety Tax Fund*.

The *Restricted for school food service* balance includes the unexpended funds used in the school food service program, which has not been encumbered, that has been in reported Non-Major Fund – *Child Nutrition Fund*.

The *Restricted for debt service* balance includes the unexpended funds dedicated for debt service, which has not been encumbered, that has been reported in the Major Fund – *Debt Service Fund*.

The *Restricted for capital projects* includes the unexpended proceeds for general obligation debt included in the Major Fund – *2012 Construction Fund*, the Major Fund – *2017 Construction Fund*, and the Non-Major Fund – *2003 Construction Fund*.

The *Committed for sixteenth section* balance includes the unexpended revenues derived from surface and subsurface annual lease payments, from proceeds from 16th section land lawsuits, and from the interest accrued on the accumulated balance that has been reported in the Non-Major Fund – *Sixteenth Section Fund*.

### **C. SALES AND USE TAXES**

On March 6, 1965, the voters of Lafourche Parish approved a one-percent sales and use tax to be levied and collected by the Lafourche Parish School Board. The proceeds of the tax were dedicated for the purpose of payment of salaries of teachers and other personnel employed by the School Board and/or for the general operations of the schools, excluding expenditures for capital improvements and purchases of automotive equipment.

The voters approved an additional one-percent sales and use tax for the School Board on April 29, 1995 to provide for salary increases (including related benefits) to all personnel except central office administrators. The tax also provides funding for textbook and technology upgrades.

LAFOURCHE PARISH SCHOOL BOARD

**D. AD VALOREM TAXES**

Ad valorem taxes and the related state revenue sharing (which were based on population and homesteads in the parish) were recorded in the year the taxes were assessed. Ad valorem taxes are assessed on a calendar year basis, become due on November 15 of each year, and become delinquent on December 31. The taxes were generally collected in December, January, and February of the fiscal year. State revenue sharing was included in unrestricted state grants.

LAFOURCHE PARISH SCHOOL BOARD  
Notes to the Financial Statements  
June 30, 2019

The following is a summary of authorized and levied ad valorem taxes as of June 30, 2019:

NAME OF TAX	FUND	AUTHORIZED RATE	LEVIED RATE	EXPIRATION DATE
Constitutional	General	3.63 mills	3.63 mills	None
Special Maintenance	General	7.49 mills	7.49 mills	2029
Air-Conditioning Maintenance	Air-Conditioning Maintenance	7.49 mills	7.49 mills	2030
Salary Supplement	Salary Supplement	7.49 mills	7.49 mills	2029
Retirement Obligations	Retirement Supplement	2.00 mills	2.00 mills	2031
Safety	Safety Tax	4.00 mills	4.00 mills	2024
Debt Service	Debt Service	11.20 mills	11.20 mills	None

The Debt Service millage rate does not expire, but the rate is limited to the amount needed to pay the interest and principal on the School Board’s general obligation debt and other to pay other expenses that are legally chargeable to the Debt Service Fund. The rate must be adopted annually and submitted to the Parish Assessor according to state law.

The School Board is subject to certain tax abatement agreements with individuals and businesses through one program – the Industrial Tax Exemption Program (“ITEP”). ITEP is authorized under Article 7, Section 21(F) of the Louisiana Constitution and Executive Order Number JBE 2016-73. The Louisiana State Board of Commerce and Industry (the “State Board”), a state entity governed by board members representing major economic groups and gubernatorial appointees, with the approval of the governor, may enter into contracts for the exemption from ad valorem taxes of a new manufacturing establishment or an addition to an existing manufacturing establishment. Companies that qualify as manufacturers can apply to the State Board for a property tax exemption on all new property, as defined, used in the manufacturing process. Under the ITEP, companies are required to promise to expand or build manufacturing facilities in Louisiana, with a minimum investment of \$5 million. The exemptions are granted for a 5-year term and are renewable for an additional 5-year term upon approval by the State Board. In the case of the local government, these state-granted abatements have resulted in reductions of property taxes, which the tax assessor administers as a temporary reduction in the assessed value of the property involved. The abatement agreements stipulate a percentage reduction of property taxes, which can be as much as 100 percent. The local government may recapture abated taxes if a company fails to expand facilities or otherwise fails to fulfill its commitments under the agreement. Ad valorem taxes applicable to the School Board that were abated under ITEP totaled approximately \$2,672,700 for the fiscal year ended June 30, 2019.

**E. BUDGET VARIANCES**

There was no unfavorable variance in the General Fund for the year ended June 30, 2019.

LAFOURCHE PARISH SCHOOL BOARD  
Notes to the Financial Statements  
June 30, 2019

---

The Child Nutrition Fund had a \$91,875 negative variance for its revenues total. The main cause of this variance was shortfall in state funding. This variance was not greater than 5% and therefore did not require a budget amendment under Louisiana Local Government Budget Act.

**III. DETAILED NOTES ON ALL FUNDS AND GOVERNMENT-WIDE STATEMENTS**

**A. DEPOSITS**

The School Board's *Cash and cash equivalents* consist of deposits in local financial institutions and amounts invested in the Louisiana Asset Management Pool (LAMP). On June 30, 2019, the School Board had cash and cash equivalents as follows:

STATEMENT	CASH ON HAND AND IN BANKS	LAMP	TOTAL
C	\$ 16,795,574	\$ 4,080,315	\$ 20,875,889
H	1,609,603	990,000	2,599,603
K	4,516,848	1,963,721	6,480,569
TOTAL	\$ 22,922,025	\$ 7,034,036	\$ 29,956,061

At year end, the carrying amount of the School Board's bank deposits was \$22,922,025 that was reported above in *Cash on hand and in banks* and the bank balance was \$23,325,767.

Deposits in financial institutions can be exposed to custodial credit risk. Custodial credit risk for deposits is the risk that in event of financial institution failure, the School Board's deposits may not be returned to them. To mitigate this risk, state law requires deposits to be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent financial institution. The School Board's deposits were not exposed to custodial credit risk at June 30, 2019. The school board does not have a policy with regard to custodial credit risk.

LAFOURCHE PARISH SCHOOL BOARD  
Notes to the Financial Statements  
June 30, 2019

Included in *Cash and cash equivalents* was a pooled cash account totaling \$8,503,655. The funds and amounts per fund included in the pooled cash account were as follows:

Statement H - Proprietary:	
Group Health	0
Loss Control	421,058
Workers Compensation	814,362
TOTAL	8,503,655

The School Board had a deficit balance for the 2017 Construction Fund that shares in the pooled cash account. Accordingly, the balance was reported as due to other funds, with the offsetting due from balance reported in the General Fund and the 2012 Construction Fund. Also, at all times the pooled cash account had a positive balance.

The School Board had Louisiana Asset Management Pool (LAMP) balances of \$7,034,036 included in its *Cash and equivalents* balance and \$20,077,644 included in *Investments*. LAMP is a local government investment pool. LAMP was administered by LAMP, Inc., which is a nonprofit corporation organized under the laws of the State of Louisiana, formed by an

LAFOURCHE PARISH SCHOOL BOARD  
Notes to the Financial Statements

---

initiative of the State Treasurer in 1993. The corporation was governed by a board of directors consisting of the State Treasurer, representatives from various organizations of local government, the Government Finance Officers Association of Louisiana, and the Society of Louisiana CPA's. Only local governments having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP was to provide a safe environment for the placement of public funds in short-term, high quality investments. LAMP investments were restricted to securities issued, guaranteed, or backed by the U. S. Treasury, the U. S. government or one of its agencies, enterprises, or instrumentalities, as well as repurchase agreements collateralized by those securities. The dollar weighted average portfolio maturity of LAMP assets were restricted to not more than 60 days, and consists of no securities with a maturity in excess of 397 days. LAMP was designed to be highly liquid to give its participants immediate access to their account balances. LAMP has consistently earned a rating of AAAM from Standard & Poor's, the highest rating available to LAMP. Due to this immediate access feature, funds invested in LAMP directly by the school board were considered cash equivalents by the School Board. Funds invested in LAMP through Argent Trust are included in investments.

The investments in LAMP are stated at fair value based on quoted market rates. The fair value is determined on a weekly basis by LAMP and the value of the position in the external pool is the same as the value of the pool shares.

## **B. INVESTMENTS**

The School Board allowed funds which were available for investment and above immediate cash requirements to be invested in accordance with the following: a.) first priority shall be to secure safety of principle, b.) the second priority shall be to ensure liquidity of funds to meet the obligations of the School Board, and c.) the third priority shall be the yield of investments. As of June 30, 2019, the School Board's *Investments* of \$33,703,706 consisted of *Cash equivalents* (certificates of deposit and LAMP deposits), *Fixed Income, Federal* (U. S. Government Instrumentalities), *Fixed Income, LA State* (Louisiana securities by the State of Louisiana), *Fixed Income, LA Local* (securities funded by the various political subdivisions excluding School Districts), *Fixed Income, LA School District* (funded by the various School Districts).

The School Board categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The values of securities included in *Investments* for the Fixed Income Federal, Louisiana State and Louisiana Local types were determined using a matrix pricing model employed by Argent Trust (Level 2 inputs) for the fiscal year ended June 30, 2019. The values of the Certificates of Deposits in manner similar to the valuations used for the balances in *Cash*

*and cash equivalents.* The investments in LAMP are not categorized because they are not evidenced by securities that exist in physical or book entry form. The investment is with the pool, not the securities that make up the pool.

The following table contains the breakdown of the amounts reported as *Investments*:

INVESTMENT TYPE	6/30/2019	% of Total
Cash Equivalents, LAMP	20.0	59.6%
Fixed Income, Federal	12.7	37.7%
Fixed Income, LA State and Local	0.9	2.7%
<b>TOTAL</b>	\$ 33.7	100.0%

*Credit risk.* All of the School Board’s investments consist of certificates of deposit with financial institutions whose principal offices are located within Louisiana, deposits in the Louisiana Asset Management Pool, bonds issued by Federal Government Sponsored Entities such as Federal Home Loan Bank and Federal National Mortgage Association (GSE’s) and bonds issued by Louisiana local governments. The certificates of deposit are covered by federal deposit insurance. LAMP has consistently earned a rating of AAAm from Standard & Poor’s, the highest rating available to LAMP. The GSE’s carry an AAA rating by two of the nationally recognized rating agencies; however, Standard and Poor’s rates the securities of these agencies as AA+. The bonds issued by the Louisiana local governments maybe unrated; however, the issuers of these bonds consist of larger local governments within the major metropolitan areas of Louisiana. The School Board does not have a policy with respect to credit risk.

*Interest rate risk.* In accordance with its investment policy, the School Board managed its exposure to declines in fair values for its fixed rate securities by using the weighted average maturity method. This method took into account the timing of maturities and the amounts that were required to mature on specific dates to meet liquidity needs. The laddering strategy which spreads maturity dates was used to meet liquidity requirements and to decrease interest rate risk.

The maturities were laddered from one to 30 months as shown in the following table.

Months Outstanding	Amount	Percentage
0 -10	\$10,955,800	40.2%
11 - 20	16,296,323	59.8%
21 - 30

Interfund transfers are payments made by the School Board from one fund to another that do not carry a corresponding obligation on the receiving fund to repay the amount to the paying fund. The transfers make it easier for management to record expenditures such as payroll where recording of such expenditures to some of the funds is not efficient, while providing enough documentation to fulfill the School Board's obligation to account for the use of restricted funds. Transfers in and out also include the payments made by certain federal funds to the General Fund as indirect costs. Interfund transfers made during the year ended June 30, 2019 were as follows:

**G. COMPENSATED ABSENCES**

At June 30, 2019, employees of the School Board had accumulated and vested \$5,882,999 of employee leave benefits, which was computed in accordance with GASB Codification C60. The total of leave reductions that came from leave payouts was \$409,876 in fiscal year 2019. The liability for leave privileges not requiring current resources were recorded as long-term debt in the government-wide financial statements.

**H. CERTIFICATES OF INDEBTEDNESS**

The School Board issued \$2,300,000 of Certificates of Indebtedness on February 1, 2006. The purpose of the debt was to pay for the cost of energy efficiency building improvements that were subject to the performance contract between the School Board and Siemens Building Technologies, Inc. The Certificates are secured by and payable as to principal and interest from a pledge and dedication of (i) the energy cost savings resulting from the performance based efficiency contract to construct, acquire and improve the Project and (ii), the excess of annual revenues above statutory, necessary and usual charges.

General obligation bonds were direct obligations with the principal and interest requirements to be funded in accordance with Louisiana law by the annual ad valorem tax assessment on taxable property within the parish. At June 30, 2019, the School Board had accumulated \$11,962,981 in the debt service fund for future debt requirements. The amount of the pledged revenue, equal to the remaining principal and interest is \$116,841,176. Pledged revenues on the bonds recognized during fiscal year 2019 were \$10,627,455, while the debt service payment requirements were \$11,569,980. The difference in debt service payment requirements, and the revenues recognized were covered through accumulated fund balance of the Debt Service Fund.

LAFOURCHE PARISH SCHOOL BOARD  
Notes to the Financial Statements

TOTAL	\$ 91,575,000	\$ 25,266,176	\$ 116,841,176

In accordance with Louisiana Revised Statute 39:562.M, the School Board was legally restricted from incurring long-term bonded debt in excess of 50 percent of the assessed value of taxable property. At June 30, 2019 the legal debt limit was \$568,701,140 while the net outstanding bonded debt, bonded debt total less debt service accumulation, was \$79,612,019 resulting in a legal debt margin of \$489,089,121.

The School Board has five general obligation refunding series bond issues outstanding. When the refunding bonds were issued, a trust account was set up to pay off the refunded bonds according to their original repayment schedules. At June 30, 2019, the balance of the refunded bonds that were still outstanding was \$35,135,000.

#### IV. OTHER INFORMATION

##### A. RISK MANAGEMENT

The School Board had established a Group Health Insurance Fund (an internal service fund) to account for various risks of loss related to providing medical payments as required by the group health insurance program. Under this program, the Fund assumed \$300,000 for each claim and the School Board had purchased commercial insurance for claims in excess of the exposure assumed by the Fund. Also, the School Board had retained a third-party administrator to supervise, evaluate and administer claims, and provide a preferred provider network. All funds that had budgets that included employee positions participated in the program and made payments to the fund based on management's estimates of the amounts needed to pay prior and current year claims. These interfund "premiums" were reported as quasi-external transactions. The Group Health Insurance Fund has a \$1,312,897 *Net Position* balance at June 30, 2019.

LAFOURCHE PARISH SCHOOL BOARD  
Notes to the Financial Statements  
June 30, 2019

The School Board was exposed to various risks of loss related to personal injury to students and other individuals (not employees), and to its buildings and contents. The following table contains the exposures to these perils that are managed using the Loss Control Fund:

Type of Peril	Per Occurrence Limit	Aggregate Limit	Self-Insured Retention
General liability	\$1,000,000	\$2,000,000	\$150,000
Violent and malicious acts	1,000,000		20,000

Loss by fungus	100,000,000		1,000,000
All other perils	100,000,000		100,000

The General Fund makes payments to the Loss Control Fund based on current premiums and expected losses from these types of exposure. These interfund “premiums” were reported as quasi-external transactions. The June 30, 2019 *Net Position* balance in the Loss Control Fund was \$654,428.

The School Board was also exposed to various risks of loss related to providing medical and indemnity payments as required by law for on-the-job related injuries. To account for and finance its uninsured risks of loss, the School Board has established a Workers’ Compensation Fund (an internal service fund). Under this program, the Workers’ Compensation Fund was responsible for \$550,000 of each workers compensation claim and has a \$2.0 million limit for each workers compensation claim. Also, the School Board had retained third-party administrator to supervise, evaluate and administer claims, and provide loss prevention services. All funds that pay salaries participated in the program and made payments to the fund based on management’s estimates of the amounts needed to pay prior and current year claims. These interfund “premiums” were reported as quasi-external

transactions. The *Net Position* balance in the Worker's Compensation Fund was \$103,093 as of June 30, 2019.

At June 30, 2019, the outstanding claims liability accruing to the Loss Control, Worker's Compensation and Group Health Insurance Funds was \$2,406,643. The estimated claim liability had been determined by the third-party administrator based on historical information and anticipated payments. These liabilities were based on the requirements of GASB Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues* which required a liability for claims be reported if information prior to the issuance of the financial statements indicates that it was probable and the amount of the loss can be reasonably estimated.

The following table showed the changes in this liability as of June 30, 2019:

	GROUP INSURANCE	LOSS CONTROL	WORKERS COMPENSATION	TOTAL
Balance July 1	\$ 2,796,583	\$176,434	\$1,076,026	\$ 4,049,043
Current year claims and estimates	16,512,303	643,375	853,306	18,008,984
Less: Claim payments	18,268,560	442,008	940,816	19,651,384
Balance June 30	\$ 1,040,326	\$377,801	\$986,516	\$ 2,406,643

The School Board was self-funded for unemployment claims filed with the State. The claims were accounted for on the cash basis in the fund in which the original salary was paid. The school Board paid \$12,392 to the State for benefits claimed during the year ended June 30, 2019. The School Board retains a third-party administrator to supervise, evaluate and administer claims.

**B. CONTINGENT LIABILITIES**

The Lafourche Parish School Board received funding under grants from various federal and state governmental agencies. These grants specify the purpose for which the grant monies were to be used and such grants were subject to audit by the granting agency or its representative. If the grant monies received were not expended appropriately, the Lafourche Parish School Board may be required to reimburse the granting agency.

At June 30, 2019, the School Board was involved in several lawsuits. In the opinion of legal counsel for the School Board, the potential claims against the School Board, not covered by insurance, or for which a liability has already been accrued in the internal service funds would not materially affect the financial statements.

The Lafourche Parish School Board received funding under contracts for E-Rate. These contracts specify the purpose for which the monies were to be used and such contracts were subject to audit by the granting agency or its representative. If the contract monies

---

received were not expended in accordance with the contracts, the Lafourche Parish School Board may be required to reimburse the funding agency.

During the fiscal year 2018, the Lafourche Parish School Board and Seimens Building Technology negotiated changes to the contract for Energy Conservation Equipment and Consulting Services that was originally signed on October 5, 2005 for the purpose of the sale and installation of energy saving equipment, monitoring, maintenance and service designed to save energy and reduce costs for certain property and buildings. The original terms of the contract were similar to ones that were successfully challenged in court. The amended contract was reviewed and found satisfactory by Louisiana Legislative Auditor. The amended contract revises the methods in which savings are calculated and verified. Under the previous terms of the contract, the School Board would owe Siemens about \$1,377,496 for savings that would have accrued through May 31, 2018, the anniversary of the contract. No payments have been made to the vendor under of the Guaranteed Savings portion of the Energy Performance contract. Management has not reevaluated this amount in 2019 because it believes the likelihood of the contractor asserting this claim is remote.

**C. POST EMPLOYMENT HEALTH CARE AND LIFE INSURANCE BENEFITS**

*Plan description.* The Lafourche Parish School Board provided certain continuing health care and life insurance benefits for its retired employees. Substantially all of the School Board's employees become eligible for these benefits if they reach normal retirement age while working for the School Board. These benefits for retirees and similar benefits for active employees were provided through the Group Health Insurance Fund whose monthly premiums were paid jointly by the employee or retiree and by the School Board.

The Lafourche Parish School Board's Other Postemployment Benefit (OPEB) Plan (the OPEB Plan) is a single-employer defined benefit OPEB plan administered by the Board. The authority to establish and/or amend the obligation of the employer, employees and retirees rests with the Board. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Governmental Accounting Standards Board (GASB) Statement No. 75.

*Eligibility.* Active employees are eligible for health benefits at retirement as long as they were enrolled in the School Board's plan prior to retirement. Employees retiring with ten consecutive years of coverage (if hired after July 1, 2009) or five consecutive years of coverage (if hired prior to July, 2009) are eligible for reduced rates.

At June 30, 2019, there were 1,960 active employees and 1,330 retirees in the OPEB Plan.

*Contributions.* The School Board recorded the cost of providing these benefits (the School Board's portion of premiums) in the governmental funds when the monthly premiums were due. The payments made in 2019 and 2018 for retiree insurance expenditures were \$4,524,078 and \$4,517,622 , respectively.

*OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows or Resources Related to OPEB.* The School Board's total OPEB liability of \$148,187,323 was measured as of June 30, 2019 and was determined by an actuarial valuation as of that date. For the year ended June 30, 2019, the School Board recognized OPEB expense of \$16,170,247. At June 30, 2019, the School Board reported deferred inflows of resources related to OPEB from the following source:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience		
Changes of assumptions/inputs	\$ 4,004,024	\$ 388,016
Net difference between projected and actual investments		
Total	\$ 4,004,024	\$ 388,016

Amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized in the School Board's OPEB expense in future years as follows:

Year	Amount
2020	3,417,079
2021	198,929
2022	
2023	
2020	
Thereafter	
Total	\$3,616,008

*Actuarial Assumptions and Methods.* The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions and methods, applied to all periods included in the measurement, unless otherwise specified:

Discount Rate, Beginning of Year	3.87%
Discount Rate, End of Year	3.50%
Salary Increases	3.50%
Medical Consumer Price Index Trend	3.00%
Inflation Rate	3.00%
Actuarial Cost Method	Entry Age Normal, based on level percentage of projected salary
Amortization Method	Closed period of 2.1 years (average remaining service)

**D. DEFINED BENEFIT PENSION PLANS**

The Lafourche Parish School Board (the School Board) is a participating employer in several cost-sharing defined benefit pension plans. These plans are administered by three public employee retirement systems, the Teachers' Retirement System of Louisiana (TRSL), the Louisiana School Employees' Retirement System (LSERS) and the Louisiana State Employees' Retirement System (LASERS). Article X, Section 29(F) of the Louisiana Constitution of 1974 assigns the authority to establish and amend benefit provisions of these plans to the State Legislature. Each system is administered by a separate board of trustees and all Systems are component units of the State of Louisiana.

Each of the Systems issues an annual publicly available financial report that includes financial statements and required supplementary information for the system. These reports may be obtained by writing, calling or downloading the reports as follows:

**Plan Descriptions:**

**Teachers' Retirement System of Louisiana (TRSL)** is administrator of a cost-sharing defined benefit pension plan. The plan provides retirement, disability, and survivor benefits to employees who meet the legal definition of a "teacher" as provided for in LRS 11:701. Eligibility for retirement benefits and the calculation of retirement benefits are provided for in LRS 11:761.

**Louisiana School Employees' Retirement System (LSERS)** administers a cost-sharing defined benefit pension plan to provide retirement, disability, and survivor benefits to eligible state employees and their beneficiaries as defined in LRS 11:411-414. The age and years of creditable service required in order for a member to receive retirement benefits are established by LRS 11:441 and vary depending on the member's hire date, employer and job classification.

**Louisiana State Employees' Retirement System (LASERS)** is the administrator of a cost-sharing defined benefit pension plan. The plan provides retirement, disability, and survivor benefits to school employees as defined in LRS 11:1002. Eligibility for retirement benefits and the computation of retirement benefits are provided for in LRS 11:1141.

**Cost of Living Adjustments**

The pension plans in which the School Board participates have the authority to grant cost-of-living adjustments (COLAs) on an ad hoc basis. COLAs may be granted to these systems, (TRSL LSERS, and LASERS) if approved with a two-thirds vote of both houses of the Legislature, provided the plan meets certain statutory criteria related to funded status and interest earnings.

**Funding Policy**

Article X, Section 29(E)(2)(a) of the Louisiana Constitution of 1974 assigns the Legislature the authority to determine employee contributions. Employer contributions are actuarially determined using statutorily established methods on an annual basis and are constitutionally required to cover the employer's portion of the normal cost and provide for the amortization of the unfunded accrued liability. Employer contributions are adopted by the Legislature annually upon recommendation of the Public Retirement Systems' Actuarial Committee. TRSL also receives a percentage of ad valorem taxes collected by parishes. The parish is not a participating employer in the pension system and is considered to be a non-employer contributing entity.

Contributions to the plans are required and determined by State statute (which may be amended) and are expressed as a percentage of covered payroll. The contribution rates in effect for the year ended June 30, 2019, for the School Board and covered employees were as follows:

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

The following schedule lists the School Board's proportionate share of the Net Pension Liability allocated by each of the pension plans based on the June 30, 2018 measurement date. The School Board uses this measurement date to record its Net Pension Liability and associated amounts as of June 30, 2019 in accordance with GASB Statement 68. The schedule also includes the proportionate share allocation rate used at June 30, 2018 along with the change compared to the June 30, 2017 rate. The School Board's proportion of the Net Pension Liability was based on a projection of the Agency's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined.

The present value of future retirement benefits is based on benefits currently being paid by the System and includes previously granted cost of living increases. The projected benefit payments do not include provisions for potential future increases not yet authorized by the Board of Trustees as they were deemed not to be substantively automatic.

The System allows for the payment of ad hoc permanent benefit increases that are funded through investment earnings when recommended by the board of trustees.

**Discount Rate**

The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that sponsor contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, each of the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate used to measure the total pension liability for TRSL, LSERS and LASERS was 7.65%, 7.062% and 7.65%, respectively for the valuation dated June 30, 2018.

**Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate**

The following table presents the School Board's proportionate share of the Net Pension Liability (NPL) using the discount rate of each Retirement System as well as what the School Board's proportionate share of the NPL would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current rate used by each of the Retirement Systems:

**Payables to the Pension Plan**

The Lafourche Parish School Board recorded accrued liabilities to each of the Retirement Systems for the year ended June 30, 2019 mainly due to the accrual for payroll at the end of each of the fiscal years. The amounts due are included in liabilities under the amounts reported as accounts, salaries and other payables. The balance due to each for the retirement systems at June 30, 2019 and at each of the two prior years is as follows:

	June 30, 2019	June 30, 2018	June 30, 2017

**E. ON-BEHALF PAYMENTS FOR SALARIES AND BENEFITS**

GASB Statement 24 Accounting and Financial Reporting for Certain Grants and Other Financial Assistance requires the Board to report in the financial statements on-behalf salary and fringe benefits payments. The Parish Tax Collector makes retirement remittances to the teacher's retirement system of the State of Louisiana. These remittances are a portion of the property taxes and state revenue sharing collected which are statutorily set aside for teacher's retirement. The basis for recognizing the revenue and expenditure payments is the actual contribution made by the Tax Collector's office. For the 2019 fiscal year, the Tax Collector paid the Teacher's Retirement System of Louisiana \$1,174,377. These amounts are reflected in the financial statements for the General Fund.

**SINGLE AUDIT**

June 30, 2019

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH GOVERNMENT AUDITING STANDARDS**

Independent Auditor's Report

To the Members of the  
Lafourche Parish School Board  
Thibodaux, LA

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Lafourche Parish School Board (the School Board), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the School Board's basic financial statements, and have issued our report thereon dated December 31, 2019.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the School Board's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School Board's internal control. Accordingly, we do not express an opinion on the effectiveness of the School Board's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the School Board's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as items 2019-001, 2019-002, and 2019-003.

### **Lafourche Parish School Board's Response to Findings**

Lafourche Parish School Board's response to the findings identified in our audit is described in the accompanying corrective action plan. The School Board's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School Board's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM;  
REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND  
REPORT ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
REQUIRED BY THE UNIFORM GUIDANCE**

Independent Auditor's Report

To the Members of the  
Lafourche Parish School Board  
Thibodaux, LA

**Report on Compliance for Each Major Federal Program**

We have audited Lafourche Parish School Board's (the School Board) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the School Board's major federal programs for the year ended June 30, 2019. The School Board's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

**Management's Responsibility**

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

**Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of the School Board's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School Board's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the School Board's compliance.

### **Opinion on Each Major Federal Program**

In our opinion, the School Board complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

### **Report on Internal Control Over Compliance**

Management of the School Board is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the School Board's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School Board's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the School Board as of and for the year ended June 30, 2019 and have issued our report thereon dated December 31, 2019, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document.

LAFOURCHE PARISH SCHOOL BOARD  
Notes to the Schedule of Expenditures of Federal Awards  
June 30, 2019

---

1. BASIS OF ACCOUNTING

The Schedule of Expenditures of Federal Awards was prepared on the modified accrual basis of accounting, which is consistent with the basic financial statements.

2. DEFINITION OF CLUSTER

A cluster of programs means a grouping of closely related programs that share common compliance requirements. The types of clusters of programs are research and development, student financial aid, and other clusters. "Other clusters" are defined by the Office of Management and Budget (OMB) in the Compliance Supplement.

3. RECONCILIATION OF TOTAL FEDERAL REVENUES IN STATEMENT E TO TOTAL PROGRAM ACTIVITY IN SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Statement E Federal Revenues	
Restricted grants-in-aid - direct	\$311,934
Restricted grants-in-aid - subgrants	16,768,805
Revenue for/on behalf of LEA	422,700
Total federal revenues in Statement E	<u>\$17,503,439</u>

4. NON-CASH ASSISTANCE

Non-monetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed. At June 30, 2019, the school board had food commodities totaling \$322,239 in inventory. The value of commodities received during the period ended June 30, 2019 totaled \$422,700.

5. INDIRECT COST RATE

During the year ended June 30, 2019, the Lafourche Parish School Board elected not to use the 10.00% de minimis cost rate as covered in §200.41 of the Uniform Guidance.

**2019-001 Donation of Public Funds**

*Criteria:* Louisiana Constitution, Article VII, Section 14

*Condition:* During our audit procedures, we were made aware of a few instances in which lunches were provided to teachers for teacher appreciation week. Additionally, gift cards were awarded to staff members without proper documentation. Since no business purpose for the meals or gift cards was present, noncompliance with Louisiana Constitution, Article VII, Section 14 occurred.

*Cause:* School administration failed to maintain awareness of the Louisiana Constitution Article VII, Section 14 prohibition on donation of public funds.

*Effect:* Noncompliance with Louisiana Constitution Article VII, Section 14.

*Recommendation:* We recommend that the School Board cease providing meals to teachers without an express business purpose for the meal. We further recommend that the School Board cease awarding gift cards to teachers with public funds.

*Management's Response:* See corrective action plan.

**2019-002 Budget Compliance**

*Criteria:* Louisiana Revised Statutes (LRS) 39:1307(B)

*Condition:* The School Board did not advertise prior to its public hearing and adoption of the 2019 budget. Additionally, the budget was not completed and submitted to the School Board and made available for public inspection at least 15 days prior to the date of budget adoption.

*Cause:* The advertising omission was caused by an error by the official journal of the School Board. The noncompliance with the 15 day requirement was an error on the part of management.

*Effect:* Noncompliance with LRS 39:1307(B).

*Recommendation:* We recommend the School Board initiate the process of publishing notices and submitting the budget at a prescribed date earlier in the year.

*Management's Response:* See corrective action plan.

*Criteria:* Louisiana Administrative Code (LAC) 42.I.1721

*Condition:* Some schools' raffle accountability sheets were not completed or maintained. Several schools held raffles and did not prepare a reconciliation of funds and lacked documentation of gaming applications.

*Cause:* The omission was caused by an error on the part of school administration.

*Effect:* Noncompliance with LAC 42.I.1721.

*Recommendation:* We recommend the schools to maintain proper documentation when raffles are held.

LAFOURCHE PARISH SCHOOL BOARD  
Corrective Action Plan  
June 30, 2019

---

**2019-001 DONATION OF PUBLIC FUNDS**

The Internal Auditor will meet with the schools' administrators and immediate supervisors to stress the importance of following school board procedures pertaining to providing lunches and gift cards to teachers. The Internal Auditor will also communicate with all school administrators to make sure all are informed about the lunch and gift card policies.

**2019-002 BUDGET COMPLIANCE**

A control sheet has been established for the production and adoption of the budget. This control sheet will be prepared prior to assembling the budget, and will contain the date for submitting the budget to the School Board, for publishing the notice of the public hearing and for the adoption of the budget. The Business Manager and the Assistant Business Manager will monitor the progress of the budget and make sure all deadlines are met.

**2019-003 RAFFLE DOCUMENTATION**

The Internal Auditor will meet with the schools' administrators and immediate supervisors to review LA Code 42.1.1721 and stress the importance of following all code requirements.

A journey of a thousand miles begins with a single step

\*Reassessment year

The assessor adds property to the ad valorem tax rolls by first determining the fair market value of the property as it becomes subject to ad valorem tax. The assessor then applies the appropriate assessed valuation percentage to property's fair market value to determine gross taxable value. The percentages are:

- 10% for land, and improvements for residential purposes
- 15% for electric cooperative properties, excluding land, and other property
- 25% for public service properties, excluding land, and other property

The homestead exemption of \$75,000 is then deducted from property subject to the exemption in determining the net assessed value.

Under the laws of the State of Louisiana, the assessor is required to re-appraise all property subject to ad valorem tax every four years.
